

Fears & Hypothesis

Name: _____

FEARS *yours alone, no sharing required*

HYPOTHESIS *one per team of three · small wedge, one customer type, one test*

If we help _____
[customer] the specific person experiencing the problem

solve _____
[problem] what they are facing, described in detail

with _____
[solution] the approach you will use to solve it

they will choose it over _____
[competitors] who or what else they could choose

because our solution is _____
[differentiation] what makes your approach unique

and we will prove it by _____

[the test] measurable and falsifiable, e.g. "3 of 5 testers finish the flow unprompted"

Keep this sheet. We come back to it at the end.
